

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

What is claimed is:

1. (Currently Amended). A motorcycle comprising:
- a frame;
  - a front wheel coupled to the frame;
  - a rear wheel coupled to the frame;
  - an engine supported by the frame and adapted to propel the motorcycle;
  - an oil tank supported by the frame and including an inlet defining an inlet

aperture having an inlet axis; and

an oil tank cap rotatable about the inlet axis between an inserted position and a sealed position, the oil tank cap having a movable portion movable substantially along the inlet axis ~~without substantial rotation~~ between a retracted position and an extended position and maintainable in the retracted position without substantial rotation of the movable portion between the extended position and the retracted position.

2. (Original) The motorcycle of claim 1, wherein the movable portion includes an outer surface and the oil tank includes an outer surface, and the outer surface of the oil tank cap is flush with the outer surface of the oil tank when the oil tank cap is in the sealed position and the movable portion is in the retracted position.
